www.sterisets.com

PART OF STI GROUP

Sterisets International BV was established in 1996, as a result of a spinoff from a medical distributing company in The Netherlands. Instead of only buying and selling, the goal was to start our own manufacturing facility in the medical business. We have been growing our activities worldwide, with currently 5 facilities in The Netherlands and in Portugal, which together form the STI group.

Sterisets

Oss, The Netherlands

This is the headquarter of the Sterisets International Group, with the management, international sales division and logistics department.

Steripack

Penafiel, Portugal - Logistics & Offices

With this new facility, opened in 2020 across the road from our production facility, we have expanded our warehouse capacity with 2.600 m², and 700 m² office space.

Steripack

Penafiel, Portugal - Production & Quality

Our 3.500m² facility, gives space to our cleanroom, injection molding production, warehouse and laboratory. In our 1.000 m², ISO 7 cleanroom, thousands of medical kits and trays are produced daily, under close supervision of our highly qualified quality department. The Prefilled syringes are made in a Cleanroom ISO-5, within the same facility.

Steripack

Guilhufe, Portugal - Non-sterile Production and Warehouse

At our first Portuguese facility, the production for the lamination and folding of our drapes and draw sheets and storage of our non-sterile products takes place.

Sterifluids

Cascais, Portugal - Medical fluids

The newest member of our family... Here we produce medical fluids for Dialysis, Disinfectant, Saline (NaCl) and other fluids. In this factory we also produce scrub brushes, nose sprays and pre-filled syringes.

Together, all of us at The Sterisets International Group (STI) are dedicated to provide you with a wide range of medical products to increase efficiency in the medical field.

medisp®

Medical Disposables

Medisp® medical disposables are designed and manufactured with selected high-quality materials to ensure the utmost hygiene, safety and resistance in compliance with strict European regulations.

Safety functions and multitude of applications are highlights of our products.

Our medical disposables can be divided into 9 groups:

1. Bowls, Jugs & Containers
2. Trays
3. Instruments
4. Caps
5. Wrappers & Drapes
6. Laminated products
7. Maternity Pads
8. Tourniquets
9. Gloves

Bulk vs Sterile Products

All products displayed in the Medisp® brochure are available in bulk non sterile as well as single packed sterile:

- Non sterile bulk: REF number without letters.
- Sterile single packed: REF + S.
- Sterile multiple packed: REF + S + number of items.
- Sterile double packed: REF + SD.

Example : 217011 - Is non sterile bulk.
217011S - Is sterile single packed.
217011S5 - Is sterile per 5 pieces packed.
217011SD - Is sterile double packed.

Colors

The Medisp® assortment consists of a number of standard colors as shown below.
Almost all plastic products can be produced in every RAL color.
Please keep in mind that customization may lead to a longer delivery time, and higher minimum order quantity.

Standard Medisp® colors:

Delivery time

Most non sterile bulk products can be delivered directly from stock, or when not available within 4 weeks.
Sterile products will have a longer lead time, as they will be produced on request.
Accurate delivery times will be provided on request.
